Components of the Transcend 365 miniCPAP[™]

1. Transcend Travel Bag
2. Transcend 365 miniCPAP Quick Guide
3. Standard 6 foot hose (packaged separately)
4. Universal power supply (PSA3)
5. USB Cable
6. Transcend 365 miniCPAP with integrated heated humidifier

The 365 miniCPAP is the first and only CPAP system to use patented Capillary Force Vaporizer[™] (CFV) technology. CFV deliver warm, moist air to you only when you inhale to deliver comfortable therapy when you need it. The 365 miniCPAP uses about half the water of a standard heated humidifier and much less energy. This small, lightweight package can deliver full humidification almost immediately and can even operate on battery power!

WORLD'S SMALLEST INTEGRATED CPAP + HEATED HUMIDIFIER

New color LCD screen

You can now view your compliance data and settings on your 365 miniCPAP device.

New battery-powered CPAP and humidifier

Experience the comfort of heated humidification every night, everywhere. Thanks to smart, patented power management technology, the small but powerful P10 CPAP battery can power the Transcend 365 miniCPAP AND heated humidifier so you can sleep comfortably every night, everywhere⁽²⁾ The 365 miniCPAP conveniently delivers comfortable CPAP therapy at home and on the go in a sleek, modular design. That's smart.

Perfectly stacked

Thoughtful design allows you to neatly stack the battery under the CPAP and humidifier for a minimal profile on the nightstand.

Large, tactile buttons

Large buttons make it easy for users to navigate the menu screens and begin therapy.

Full-sized features in a travel-size CPAP

Transcend 365 miniCPAP™ takes portable CPAP to a new dimension by introducing an incredibly small, truly portable, and unique heated humidifier. Now you can enjoy all the features and benefits of the CPAP you've come to rely on at home in a package that's half the size⁽¹⁾ and is perfect for traveling.

The
Smart CPAP
at home and
on the go.
